

# Medical Unit

Hobart Private Hospital has an Acute Medical unit with 38 beds, including 2 sleep study beds. This Unit is staffed by visiting VMO's and Registered & Enrolled Nurses. We have an onsite Doctor in Emergency available 24hrs and a resident doctor available Monday to Friday between 8 and 4pm.

Patients are admitted to this unit either by Visiting Medical Officers to the Hospital specialising in such areas listed below, or through the Department of Emergency.

Patient's are admitted to our Unit with:

- Pneumonia
- CVA (Stroke)
- Unstable Diabetes (onsite Diabetes Educator)
- Chronic Obstructive Pulmonary Disease (COPD)
- Cellulitis
- Oncology
- Palliative care
- Chronic pain management
- Anaemia
- Biliary problems
- Gastroenterology

We also have a relationship with the Royal Hospital of Hobart sharing services such as Dialysis and Chemotherapy.
